MapAnything®

mapanything.com

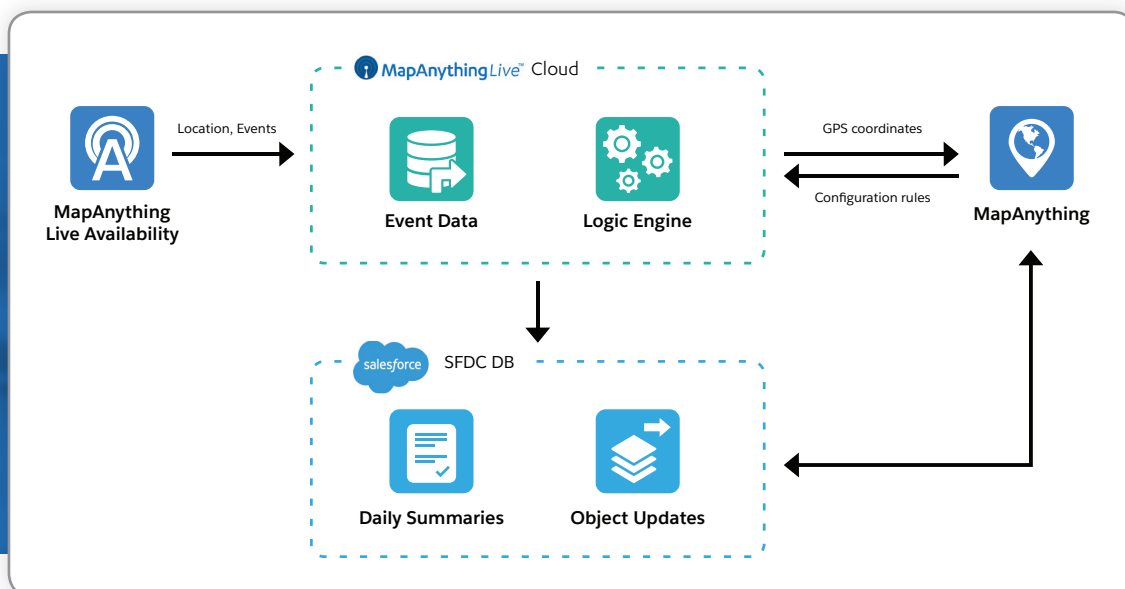

What is **MapAnything Live**?

MapAnything Live enables Internet of Things (IoT) workflow inside Salesforce. It is the only integrated vehicle telematics solution available in Salesforce®.

How does it work?

The solution provides unprecedented business process automation using real-time sensor information in combination with Salesforce records and business rules. MapAnything Live gives you access to Vehicle Location Data alongside your Salesforce data so you can see work orders, cases, customers and the location (and status) of your vehicles on ONE map in real time.

Connect to nearly any IoT-ready device including mobile phones. MapAnything can provide telematics devices for an additional charge.

Automate:

Customer Visit Logging - Safety Notifications - Vehicle Service Alerts - Off-Hour Notifications
Record Creation - Record Updates - Speed Alerts - Check Engine Alerts - Service Alerts - Off-Hour Notifications-
Location & Availability Alerts - Arrival & Departure Notifications - Employee Hour Reporting - Employee
Delayed Start Notifications

Track:

Vehicle Location - Ignition On/Off - Idle/Stops & Hard Stops - Mileage Driven - Route History - Drivetime Hours
- Device Disconnect - Seat Belt Usage - Gas Mileage - Employee Location & Availability - Onsite Durations -
Mileage Traveled - Arrivals & Departures
