B2C Commerce/Commerce Cloud Notices and License Information
Published: June 15, 2021

Services Covered
This documentation is applicable to the services branded as B2C Commerce or Salesforce Commerce Cloud (formerly “Demandware”), which includes Commerce Cloud Digital (B2C Commerce GMV or B2C Commerce PPO), Commerce Cloud Einstein (including services formerly branded by Demandware, Inc. as Predictive Email), and B2C Commerce Order Management¹ (collectively, the “B2C Commerce Services”), provided by salesforce.com, inc. or Demandware, LLC., a salesforce.com, inc. company (“Salesforce”), but excluding those services branded as Retail.net and/or Tomax.

Purpose of This Documentation
This documentation describes features, restrictions and notices associated with any:
- information sourced from third parties and provided to users via the B2C Commerce Services;
- B2C Commerce Services functionality that allows users to interact with third-party products, services or platforms; and
- desktop and mobile device software applications provided in connection with the B2C Commerce Services.

Customer Data
This documentation does not modify Salesforce’s obligations with respect to Customer Data as defined in Salesforce’s Master Subscription Agreement.

MFA Requirement for Using the B2C Commerce Services
Starting February 1, 2022, Salesforce will begin requiring customers to enable Multi-Factor Authentication (MFA) for all B2C Commerce Services, unless otherwise approved by Salesforce in accordance with Salesforce internal policies and procedures. Customer must satisfy the MFA requirement by either: (1) enabling Multi-Factor Authentication for all users who log in to Customer’s B2C Commerce Services through the user interface or (2) ensuring MFA is enabled for all users who use Single Sign-On (SSO) to access Customer’s B2C Commerce Services, by using the SSO provider’s MFA services or, where supported, by turning MFA on in Salesforce products. Further information on MFA, including acceptable verification methods for MFA, can be found here.

Data Resource Usage
Customers with a Digital GMV subscription are entitled to the following data resource usage on a per annum basis: (I) Data Storage: (a) 200 GB per Realm, (b) 10 GB per Sandbox (c) 60 GB per each $1 million USD of GMV purchased, and (d) 1,200 GB per B2C Commerce Order Management add-on subscription; (II) Data Transfer: (a) 4 TB per Realm; and (b) 4 TB per each $1 million of GMV purchased; and (III) Processing Seconds: (a) 7 million processing seconds per Realm; (b) 17 million processing seconds per each $1 million USD² of GMV.

¹ Any reference to "B2C Commerce Order Management" in this documentation refers to the version of Order Management released prior to February 19, 2020. For versions of Order Management released on or after February 19, 2020 ("Salesforce Order Management"), please see the Salesforce Services documentation here.
² Where customers are invoiced in currency other than USD, the GMV amount will be converted to the applicable currency using the average monthly conversion rate for the applicable month hosted at oanda.com. In the event customer exceeds any of the foregoing entitlements in 3 or more consecutive calendar months, Salesforce may require the customer to enter into an order form to purchase additional GMV, provided Salesforce has notified the customer.

Restricted Uses
In addition to any obligations and restrictions set forth in customer’s agreement, customer shall not: (i) use the B2C Commerce Services for the delivery of advertising content that causes the generation of a user session (e.g., use of the B2C Commerce Services as an ad server); (ii) create links to or from the B2C Commerce Services, or use any content forming part of the B2C Commerce Services, in such a manner as to circumvent or otherwise reduce entitlements, such as circumventing the checkout process of the B2C Commerce Services or otherwise reduce the GMV or Orders processed through the B2C Commerce Services; or (iii) enable any competitor of Salesforce or its affiliates to access the B2C Commerce Services, directly or indirectly.

Cooperation
In the event of a distributed denial of service (“DDoS”) event impacting one or more of customer’s websites, customer will promptly make changes, or direct its hosting and/or service providers to make changes, to customer’s network equipment and/or infrastructure as requested by Salesforce or its affiliate, in order to enable Salesforce or its affiliate to continue to provide the B2C Commerce Services in accordance with the customer’s agreement during the period the DDoS event is occurring. Customer is responsible for obtaining all necessary authorizations and permissions to effect such changes and for all fees or charges incurred in routing customer’s internet traffic to the network designed by Salesforce or its affiliate. Salesforce will provide information as reasonably requested by customer’s technical personnel to facilitate such re-routing of internet traffic. Customer shall promptly reroute internet traffic back to its previous infrastructure upon notice from Salesforce or its affiliate that the DDoS event has abated. Failure to promptly reroute internet traffic may result in customer incurring additional fees.

Customer will cooperate with Salesforce to facilitate provisioning and relocation of any Realm within a geographic region as may be required by Salesforce from time to time and cooperate with Salesforce in connection with any issuance of or changes to SSL Certificates, including the provision of required information and certificates.

Acceptable Use and External-Facing Services Policy
The B2C Commerce Services are subject to the Acceptable Use and External-Facing Services Policy, as applicable.

Third-Party Platforms
The B2C Commerce Services allow users to interact with third-party products, services and platforms, websites, products, services and platforms operated by or on behalf of a customer of the B2C Commerce Services whether through a partner of Salesforce or otherwise (collectively “Third-Party Platforms”).
- Customers must enable the B2C Commerce Services as may be required to access Third-Party Platforms.
- The B2C Commerce Services may access, collect, process, and/or store information or content from Third-Party Platforms (including information otherwise classified as Customer Data under a customer’s agreement with Salesforce).

______________________________
customer of overages in the previous 2 months. Customer understands that the foregoing limitations are contractual in nature (i.e., it is not limited as a technical matter in the B2C Commerce Services) and therefore agrees to strictly review its Users’ use of such subscriptions and enforce the limit set forth herein. Salesforce may review customer’s use of the subscriptions at any time through the Service.

Copyright 2000 – 2021 salesforce.com, inc. All rights reserved. Salesforce is a registered trademark of salesforce.com, inc., as are other names and marks. Other marks appearing herein may be trademarks of their respective owners.
Customers are solely responsible for any content their users or consumers provide to any Third-Party Platform.

Customers are solely responsible for any information accessed by their users, consumers or any third party from any Third-Party Platform.

Customers are solely responsible for their users’ and consumers’ interactions or communications with third parties through any Third-Party Platform.

Customers are solely responsible for any transactions relating to a separate agreement or arrangement between customers or their users or consumers and any Third-Party Platform provider or website and otherwise complying with such agreements.

Customers are solely responsible for ensuring they have the necessary rights from any Third-Party Platform provider to enable the integration between B2C Commerce Services and the Third-Party Platform.

Third-Party Notices
The following notices apply to Third-Party Platforms and other commercial entities that interoperate with the B2C Commerce Services:
