Einstein Analytics (including Einstein Discovery) Notices and License Information
Published: January 17, 2020

Services Covered
This documentation is applicable to the services branded Einstein Analytics (including Einstein Discovery provisioned after October 16, 2018) (formerly branded as Analytics Cloud), Wave, the associated mobile applications, the “Covered Services”) provided by salesforce.com, inc. and its affiliates (“Salesforce”). The “Playground” demonstration environments related to the Covered Services are not part of the Services provided under a customer’s agreement with Salesforce.

The notices and license information in this documentation is applicable for all Customers who were first provisioned Einstein Discovery on or after October 16, 2018. For Customers who were first provisioned Einstein Discovery before October 16, 2018, please refer to the Einstein Discovery Classic documentation.

The Einstein Analytics Plus and Einstein Prediction services are subject to the Einstein Analytics, Einstein Discovery, and Einstein Prediction Builder documentation, available in the Trust and Compliance Documentation.

Purpose of this Documentation
This documentation describes features, restrictions and notices associated with any:
● information sourced from third parties and provided to users via the Einstein Analytics Services;
● Covered Services functionality that allows users to interact with third-party products, services or platforms; and
● desktop and mobile device software applications provided in connection with the Einstein Analytics Services.

See your Order Form(s) for additional terms that may apply to your use of the Covered Services.

Customer Data
This documentation does not modify Salesforce's obligations with respect to Customer Data as defined in Salesforce’s Master Subscription Agreement.

Third-Party Platforms
The Einstein Analytics Services allow users to interact with third-party products, services and platforms, including Non-Salesforce.com Applications, websites, products, services and platforms operated by or on behalf of a customer of the Covered Services (collectively “Third-Party Platforms”).
● Customers must enable the Einstein Analytics Services as may be required to access their Third-Party Platform accounts.
● The Covered Services may access, collect, process, and/or store information or content from Third-Party Platform accounts (including information otherwise classified as Customer Data under a customer’s agreement with Salesforce).
● Customers are solely responsible for any content their users provide to any Third-Party Platform.

Rights of ALBERT EINSTEIN are used with permission of The Hebrew University of Jerusalem. Represented exclusively by Greenlight.

Copyright 2000 – 2020 salesforce.com, inc. All rights reserved. Salesforce is a registered trademark of salesforce.com, inc., as are other names and marks. Other marks appearing herein may be trademarks of their respective owners.
● Customers are solely responsible for any information accessed by their users or any third party from any Third-Party Platform.

● Customers are solely responsible for their users’ interactions or communications with third parties through any Third-Party Platforms.

● Customers are solely responsible for any transactions relating to a separate agreement or arrangement between customers or their users and any Third-Party Platform provider or website and otherwise complying with such agreements.

● Customers are solely responsible for ensuring they have the necessary rights from any Third-Party Platform provider to enable the integration between Einstein Analytics Services and the Third-Party Platform.

**Einstein Analytics Connectors**
Connectors to external, third party data storage systems may be available to Customers through use of the Covered Services. Customer’s use of such third party applications must comply with the terms pursuant to which the third party vendor makes each application available to Customer, as noted below:

- **Amazon Relational Database Service (RDS):** Customer’s use of the Amazon RDS Aurora, Maria, MySQL, PostreSQL, and/or QSL Server Connector functionality must comply with the terms governing Customer’s Amazon account, including those set forth on Amazon’s website.

- **Amazon S3:** Customer’s use of the Amazon S3 Connector functionality must comply with the terms governing Customer’s Amazon account, including those set forth on Amazon’s website.

- **Amazon Redshift:** Customer’s use of the Amazon Redshift Connector functionality must comply with the terms governing Customer’s Amazon account, including those set forth on Amazon’s website.

- **Google Analytics:** Customer’s use of the Google Analytics Connector functionality must comply with the terms governing Customer’s Google account, including those set forth on Google’s website.

- **Google BigQuery:** Customer’s use of the Google BigQuery Connector functionality must comply with the terms governing Customer’s Google Cloud Platform account, including those set forth on Google’s website.

- **Google Cloud Spanner:** Customer’s use of the Google Cloud Spanner Connector functionality must comply with the terms governing Customer’s Google Cloud Platform account, including those set forth on Google’s website.

- **Microsoft Azure SQL Database:** Customer’s use of the Microsoft Azure SQL Database Connector functionality must comply with the terms governing Customer’s Microsoft Azure account, including those set forth on Microsoft’s website.

- **Microsoft Dynamics CRM:** Customer’s use of the Microsoft Dynamics CRM Connector functionality must comply with the terms governing Customer’s Microsoft Dynamics CRM account, including those set forth on Microsoft’s website.

- **NetSuite:** Customer’s use of the NetSuite Connector functionality must comply with the terms governing Customer’s NetSuite account, including those set forth on Oracle’s website.

- **Oracle Eloqua:** Customer’s use of the Oracle Eloqua Connector functionality must comply with the terms governing Customer’s Oracle Eloqua account, including those set forth on Oracle’s website.

- **SAP HANA Connector:** Customer’s use of the SAP HANA Connector functionality must comply with the terms governing Customer’s SAP HANA account, including those set forth on SAP’s website.

Snowflake Computing: Customer’s use of the Snowflake Connector functionality must comply
with the terms governing Customer’s Snowflake account, including those set forth on Snowflake’s website.

**Distributed Software**

- The End User License Agreement/Order Form Supplement for the Covered Services mobile applications listed below can be found on the Agreements and Terms page of the salesforce.com legal website.
