Einstein Discovery Classic Notices and License Information
Published: January 17, 2020

Services Covered
This Documentation is applicable to the services branded as Salesforce Einstein Discovery, formerly known as BeyondCore, (collectively, the “Einstein Discovery Classic Services”) provided by salesforce.com, inc. and/or its affiliates (collectively, “Salesforce”).

For Customers who provisioned the Einstein Discovery Service before October 16, 2018, nothing has changed, and your Services are subject to this “Einstein Discovery Classic” documentation.

For Customers who provisioned the Einstein Discovery Service on or after October 16, 2018, your use of Einstein Discovery is subject to the new “Einstein Analytics and Einstein Discovery” documentation.

The Einstein Analytics Plus and Einstein Prediction services are subject to the Einstein Analytics, Einstein Discovery, and Einstein Prediction Builder documentation, available in the Trust and Compliance Documentation.

Purpose of this Documentation
This Documentation describes features, restrictions and notices associated with any:

- information sourced from third parties or public sources and provided to users via the Einstein Discovery Classic Services;
- Einstein Discovery Classic Services functionality that allows users to interact with social media and other websites; and
- desktop and mobile device software applications provided in connection with the Einstein Discovery Classic Services.

Customer Data
This documentation does not modify Salesforce’s obligations with respect to Customer Data as defined in Salesforce’s Master Subscription Agreement.

Third Party Applications
Connectors to external, third party data storage systems may be available to Customers through use of the Einstein Discovery Classic Services. Customer’s use of such third party applications must comply with the terms pursuant to which the third party vendor makes each application available to Customer, as noted below:

- SAP HANA Connector: Customer’s use of the SAP HANA Connector functionality must comply with the terms governing Customer’s SAP HANA account, including those set forth on SAP’s website.
- Hadoop HIVE JDBC Connector: Customer’s use of the Hadoop HIVE JDBC Connector functionality must comply with the terms governing Customer’s Hadoop HIVE JDBC Connector account, including those set forth at the HIVE JDBC Repository;
- Netezza JDBC Driver: Customer’s use of the Netezza JDBC Driver must comply with the terms governing Customer’s Netezza JDBC Driver installation, including those set forth at the IBM Knowledge Center;

Rights of ALBERT EINSTEIN are used with permission of The Hebrew University of Jerusalem. Represented exclusively by Greenlight.

Copyright 2000 – 2020 salesforce.com, inc. All rights reserved. Salesforce.com is a registered trademark of salesforce.com, inc., as are other names and marks. Other marks appearing herein may be trademarks of their respective owners.
● MySQL JDBC Driver: Customer’s use of the MySQL JDBC Driver must comply with the terms governing Customer’s MySQL JDBC Driver installation, including those set forth at the MySQL Download Center;
● Oracle JDBC Driver: Customer’s use of the Oracle JDBC Driver must comply with the terms governing Customer’s Oracle JDBC Driver installation, including those set forth at the Oracle JDBC Driver Repository;
● PostgreSQL Driver and Greenplum (for which connectivity is available via the PostgreSQL Driver): Customer’s use of the PostgreSQL Driver must comply with the terms governing Customer’s PostgreSQL Driver installation, including those set forth at the PostgreSQL JDBC Driver Repository;
● Microsoft JDBC Driver for SQL Server: Customer’s use of the Microsoft JDBC Driver for SQL Server must comply with the terms governing Customer’s Microsoft JDBC Driver for SQL Server installation, including those set forth at the Microsoft Developer Network.

Distributed Software
Please see the Open Source section of the Trust and Compliance Documentation website for disclosures regarding certain third party components included in the Einstein Discovery Classic Services, and which are governed by their respective, corresponding licenses.

Interoperation with Other Services
The Einstein Discovery Classic Services may interoperate with other services provided by Salesforce or third parties. The Notices and License Information documentation for such services provided by Salesforce is available in the Trust and Compliance Documentation.
