Used:

Conformance to the listed accessibility standards has been evaluated following the [WCAG-EM](#) and using a combination of static analysis tools and manual testing with assistive technologies. The testing included a representative sample of different pages, states and content types. The following operating systems, browsers, toolsets, and screen readers are used for evaluation: Windows 11, JAWS/Chrome, NVDA/Firefox, VoiceOver/Safari (spot-checks), manual accessibility testing, and keyboard testing with visual focus.
