Chapter 3: [Functional Performance Criteria \(FPC\)](#)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	Partner Relationship Management uses standard platform attributes to describe the identity, operation, and state of user interface elements to assistive technologies. The core features and controls in Partner Relationship Management are reachable using the keyboard alone and announced by assistive technology. However, there are some exceptions. Refer to the WCAG 2.x section for details.
302.2 With Limited Vision	Partially Supports	Partner Relationship Management supports standard browser magnification and contrast adjustments. Partner Relationship Management is compatible with assistive technologies and supports the use of screen readers for the visually impaired. However, there are some exceptions. Refer to the WCAG 2.x section for details.
302.3 Without Perception of Color	Supports	Partner Relationship Management does not use color as the only means of conveying information. Color is only used as a decorative or supplemental attribute of user interface elements. Textual representation is always used as the primary mechanism for conveying information.
302.4 Without Hearing	Not Applicable	Partner Relationship Management does not include audio-only features that require hearing to be used.
302.5 With Limited Hearing	Not Applicable	Partner Relationship Management does not include audio-only features that require hearing to be used.
302.6 Without Speech	Supports	Partner Relationship Management does not require speech to operate or retrieve information. Support services related to Partner Relationship Management can be found on the Salesforce.com website. Currently, telephone
