

Infrastructure and Sub-processors for Professional Services:

Sub-processors

Published: June 24, 2025

Scope

This documentation describes certain Sub-processors, as defined in the [Professional Services Data Processing Addendum](#) (PSDPA), that Salesforce may use to perform the Professional Services. All capitalized terms not defined herein shall have the meaning set forth in the Agreement and the PSDPA.

These Sub-processors include third-party cloud-based tools material to the performance of Professional Services. Use of any other Sub-processors to perform the Professional Services will be subject to Customer's prior written consent..

Salesforce may use its own Online Services to provide Professional Services, the subprocessors for which are available [here](#).
