

License Agreement & Order Form Supplement for Salesforce Authenticator for Android

This is a legally binding license agreement and Order Form Supplement (the "License Agreement"). Please read it carefully. By clicking "I Agree," or installing or using the Salesforce Authenticator for Android software and/or any updates to such software provided by Salesforce, Inc. (collectively, the "Software"), you agree to these terms.

1. GENERAL TERMS

If you are entering into this License Agreement on behalf of an existing Customer of Salesforce, then you:

- agree to sections 1-2 and 4-6 of this License Agreement on behalf of the Salesforce customer with which you are employed, affiliated, or associated (the "Customer");
- represent that you have the authority to bind the Customer to this License Agreement; and
- represent that you are an authorized User under the MSA between Salesforce and the Customer.

If you do not have such authority, or are not an authorized User, then you may only install or use the Software as an individual (a "Free User"), as described in section 3 of this License Agreement.

This License Agreement was last updated on August 15, 2016. It is effective between the Customer or Free User, as the case may be, and Salesforce (or, if you are a Free User, Salesforce, Inc.) as of the date you first download, install or use the Software, whichever is earliest. You are responsible for reading and complying with any amended version of this License Agreement that is posted at <http://www.salesforce.com/company/legal/agreements.jsp> before such version can be made available by Salesforce via the Software.

Google Inc., your device manufacturer or your network service provider, may, at any time and without notice, restrict, interrupt or prevent use of the Software, or delete the Software from your or the Customer's or Free User's devices, or require Salesforce (or, if you are a Free User, Salesforce, Inc.) to do any of the foregoing, without entitling the Customer or you or Free User to any refund, credit or other compensation from Salesforce or any third party (including, but not limited to, Google Inc., your device manufacturer, or your network service provider).

2. CUSTOMER TERMS

Only the terms in sections 1-2 and 4-7 of this License Agreement apply to Customers.

(a) If you are entering into this License Agreement on behalf of a Customer, as set forth in section 1 above, then this License Agreement supplements and is made a part of each Order Form by which the Customer ordered the Salesforce service(s) that include the Salesforce Authenticator service (an "Order Form"). The Order Form and this License Agreement are governed by the MSA. This License Agreement adjusts certain terms of the MSA, solely with respect to the Software. Capitalized terms used but not defined in this License Agreement have the meanings given to them in the MSA.

(b) This License Agreement is being entered into between the Salesforce entity named on the Order Form ("Salesforce") and the Customer. In this License Agreement, the term "Salesforce" means that entity.

(c) The Software, including any software embedded in the Software, is licensed, not sold, to the Customer by Salesforce only under the terms of the MSA, the Order Form and the applicable terms of this License Agreement, and Salesforce reserves all rights not expressly granted to the Customer. This Software may include some third-party software; please see the User Guide for additional notices required by our licensors. Salesforce does not own the media or device on which the Software is installed by the Customer, but Salesforce retains ownership of the Software itself.

(d) This License Agreement allows you, as an authorized User under the MSA, to use the Software on any combination of a mobile device model and relevant Android software version(s) that supports the Software (a "Supported Device") and on no other devices.

(e) You may not distribute or make the Software available over a network where it could be used by multiple devices at the same time.

(f) With respect to updates to the Software that Salesforce may make available for download, this License Agreement allows you to download such Software updates to update or restore the Software on any Supported Device.

(g) Except as and only to the extent permitted by applicable law, or by licensing terms governing use of open-sourced components included with the Software, neither you nor any other Customer personnel may copy, decompile, reverse engineer, disassemble, attempt to derive the source code of, decrypt, modify, or create derivative works of the Software or Software updates, or any part thereof. Any attempt to do so is a violation of the rights of Salesforce and its licensors. If you or any other Customer personnel violate this restriction, you or they, and the Customer, may be subject to prosecution and damages.

(h) Neither you nor the Customer may rent, lease, lend, redistribute, sublicense, or otherwise make available to third parties the Software. The Customer may, however, allow other authorized Users under the MSA to use the Software in connection with a re-assignment of the Supported Device to another authorized User under the MSA.

(i) The Software is available only for Supported Devices, and is not available for all devices. Please check www.salesforce.com or contact your Salesforce representative to determine whether a specific device-Android software combination is supported by the Software.

(j) Any exhibit, addendum, or amendment to Customer's MSA that sets forth ancillary services to be provided by Salesforce, including but not limited to any Service Level Addendum or Premier Support exhibit, shall not apply to the Software.

3. FREE USER TERMS

Only the terms in sections 1 and 3-7 of this License Agreement apply to Free Users.

(a) The Software, including any software embedded in the Software, is licensed, not sold, to you as a Free User, by Salesforce, Inc. only under the applicable terms of this License Agreement, and Salesforce, Inc. reserves all rights not expressly granted to the Free User.

(b) This License Agreement permits Free User to use the Software on any combination of a mobile device model and relevant Android software version(s) that supports the Software (a "Supported Device") and on no other devices. With respect to updates to the Software that Salesforce, nc. may make available for download, this License Agreement permits Free User to download such Software updates to update or restore the Software on any Supported Device. The Software is available only for Supported Devices, and is not available for all devices. Please check www.salesforce.com to determine whether a specific device-Android software combination is supported by the Software.

(c) This Software may include some third-party software; please see section 4 of this License Agreement for additional information and disclosures. Salesforce does not own the media or device on which the Software is installed by the Free User, but Salesforce retains ownership of the Software itself.

(d) Free User shall not: (i) license, sublicense, sell, resell, rent, lease, transfer, assign, distribute, time share, or otherwise commercially exploit the Software or make the Software available to any third party, other than as expressly permitted by this License Agreement (and, for the avoidance of doubt, Free User shall not distribute or make the Software available over a network where it could be used by multiple devices at the same time); (ii) use the Software to send spam or otherwise duplicative or unsolicited messages in violation of applicable laws; (iii) use the Software to send or store infringing, obscene, threatening, libelous, or otherwise unlawful or tortious material, including material that is harmful to children or violates third party privacy rights; (iv) modify, copy or create derivative works based on the Software, other than a reasonable number of identical copies for its own disaster recovery efforts or other internal business purposes; (v) reverse engineer, decompile, decrypt, disassemble, or attempt to obtain the source code for the Software; (vi) use the Software in order to build a competitive product or service, (vii) use the Software in order to copy any ideas, features, functions or graphics of the Software except as authorized in accordance with section (iv) above, or (viii) publish or otherwise disclose to any third party the results of any performance benchmarks or other testing results in connection with Free User's use of the Software. Free User

shall comply with all applicable laws and written or electronically provided instructions from Salesforce, Inc., in using the Software. Failure to comply with the provisions of this section (3) is a violation of the rights of Salesforce, Inc. and its licensors. If Free User violates these provisions, then Free User may be subject to prosecution and damages.

(e) Free User will defend Salesforce against any claim, demand, suit or proceeding made or brought against Salesforce by a third party alleging that Free User's use of the Software in breach of this Agreement infringes or misappropriates such third party's intellectual property rights or violates applicable law (a "Claim Against SFDC"), and will indemnify Salesforce from any damages, attorney fees and costs finally awarded against Salesforce as a result of, or for any amounts paid by Salesforce under a court-approved settlement of, a Claim Against SFDC, provided Salesforce (a) promptly gives Free User written notice of the Claim Against SFDC, (b) gives Free User sole control of the defense and settlement of the Claim Against SFDC (except that Free User may not settle or defend any Claim Against SFDC unless it unconditionally releases Salesforce of all liability), and (c) gives Free User all reasonable assistance, at Free User's expense.

(f) The Software and derivatives thereof may be subject to export laws and regulations of the United States and other jurisdictions. Salesforce and Free User each represents that it is not named on any U.S. government denied-party list. Free User will not access or use the Software in a U.S.-embargoed country (currently Cuba, Iran, North Korea, or Syria) or in violation of any U.S. export law or regulation.

(g) The software is provided "as-is," exclusive of any warranty whatsoever. Salesforce disclaims all implied warranties, including without limitation any implied warranties of merchantability and fitness for a particular purpose. The software may contain bugs or errors. Any use of the software is at free user's sole risk.

(h) In no event shall Salesforce have any liability hereunder to free user for any damages whatsoever, including but not limited to direct, indirect, special, incidental, punitive, or consequential damages, or damages based on lost profits, data or use, however caused and, whether in contract, tort or under any other theory of liability, whether or not free user has been advised of the possibility of such damages.

(i) Subject to the limited rights expressly granted hereunder, Salesforce reserves all rights, title and interest in and to the Software, including all related intellectual property rights. No rights are granted to Free User hereunder other than as expressly set forth herein. Salesforce shall have a royalty-free, worldwide, irrevocable, perpetual license to use and incorporate into the Software any suggestions, enhancement requests, recommendations or other feedback provided by Free User relating to the Software.

(j) Free User may be or become entitled to receive access to other Salesforce software or online services under a separate agreement with Salesforce. In such case, that separate agreement will govern Free User's access to the other Salesforce online software or services, but will not govern Free User's use of the Software licensed hereunder. This License Agreement will govern Free User's use of the Software but not Free User's access to other Salesforce online software or services.

(k) Free User may not assign any of its rights or obligations hereunder, whether by operation of

law or otherwise, without the prior written consent of the Salesforce (not to be unreasonably withheld). This License Agreement shall be governed exclusively by the internal laws of the State of California, without regard to its conflicts of laws rules. Each party hereby consents to the exclusive jurisdiction of the state and federal courts located in San Francisco County, California to adjudicate any dispute arising out of or relating to this License Agreement. This License Agreement constitutes the entire agreement between the parties, and supersedes all prior and contemporaneous agreements, proposals or representations, written or oral (if any), concerning its subject matter. No modification, amendment, or waiver of any provision of this License Agreement shall be effective unless in writing and signed by the party against whom the modification, amendment or waiver is to be asserted.

4. THE SOFTWARE

The Software allows Customers and Free Users to use the Software from Supported Devices. The Software is provided by Salesforce. The Software includes the following third party component: Google Authenticator, which is made available pursuant to the Apache 2.0 license, a copy of which is available online at <http://www.apache.org/licenses/LICENSE-2.0.html>

In addition, this License Agreement shall terminate immediately and automatically upon any termination or expiration of the Customer's subscription to the Software. Upon any such termination or expiration, the Customer (including you) or Free User, as the case may be, shall no longer be permitted to use the Software, and shall delete or destroy all copies of the Software in its (including your) possession.
