

Salesforce Message Credits - SMS

Salesforce Message Credits - SMS (1,000) and Salesforce Message Credits - SMS for Marketing (1,000) must be purchased as an add-on to eligible Marketing Cloud Growth or Marketing Cloud Advanced, Marketing Cloud Engagement+ or Agentforce Contact Center Digital subscriptions.

The multiplier applied to each SMS message is determined by country destination, Salesforce assigned originating Phone Number Type and if applicable, if Customers have been approved for Domestic sending, for each individual message sent according to the table below.

When SMS is sent through the Marketing Cloud Engagement Platform:

All SMS messages sent to countries or Salesforce assigned originating Phone Number Type not listed in the tables below will be charged at a multiplier of 80. Not all markets listed below are supported, as further explained [here](#). Some unsupported countries have multipliers due to cost, as listed in table below.

When SMS is sent through the Unified Messaging Platform:

SMS messages can only be sent to supported countries using stated supported assigned originating Phone Number Type.

Additionally:

- Customers will be charged for all outbound, mobile terminated (MT) SMS messages, whether delivered or undelivered.
- Where supported, Customers will be charged for inbound, mobile originated (MO) SMS messages. All MO messages will be charged a multiplier of 5.
- Multipliers noted as Domestic in the table below apply only to Customers who either: (1) applied for and were approved by carrier(s) as being eligible for domestic sending, thus will send SMS through domestic gateways using pre-registered from names or (2) acquired a domestic short code within a specific region and are sending SMS on the domestic short code ("Domestic Multipliers"). Domestic Multiplier rates and eligibility are determined by the carrier and are subject to change at any time at the discretion of the carrier.
- Using Marketing Cloud Growth and Advanced features in a sandbox can impact the consumption of credits. The applicable multipliers for Marketing Cloud Growth and Advanced use in sandbox are the same as those for production. Sandbox usage will be displayed in the production org's Digital Wallet

Multipliers, countries, phone number and usage types are subject to change at any time.

TABLE BELOW EFFECTIVE AS OF May 1, 2026 - July 31, 2026:

Supported Countries with Multipliers				
ISO	Country	Salesforce Assigned Originating Phone Number Type	MT (Outbound) Multiplier	Platform Restriction
